You don't need to be a writer in order to come to this workshop, it is enough to be in conversation with yourself and the life around you. The collect provides freedom within a form, to gather up the needs of the day and make our plea. If you would like to join Julie, there will be time in the workshop to practice writing collects and the possibility (but not necessity) to share your writing.

*A prayer a plea a bird* gathers prayers and stories that address climate, pandemic, grief and beauty. Psychologist, Steve Biddulph describes it as “nourishment for activists”. To view Julie's brief intro video to this book, visit the [publisher's website](#). Julie's books will be available for sale after the workshop.

You can hear Julie interviewed on ABC RN's Soul Search, [here](#) – find her from 19mins into the program.

You are welcome to enter this contemplative writing experience with Julie. BYO notebook and pen.
